

Hey, I pay my monthly subscription for the convenience of weather and traffic. AM & FM are just pissed that the monthly fee isn't going in their pocket. I'm very up to what's going on with the government. First off we the voters have to get that Bush out of there and send him riding off into the sunset (hopfully he won't fall off his horse), second we have to get rid of these idiots that think they control our power of speech. Well like I said I keep up with all the votes and who votes for what bill and who doesn't vote for what bill.

I will make it quite clear come election when I see who got swayed and voted for yet another stupid issue, when you people should be worrying about all our people dying over in Iraq, not the "Ohh my god, this is taking money from our already cash filled pockets" excutives.

Have a good day gentleman,

Scott Swartout
